Profile

Frontend & Backend Specialist | ReactJS, Redux, NestJS, TypeScript Passionate and results-driven developer with 3+ years of experience crafting dynamic, scalable, and efficient web applications. Adept at building intuitive UIs and integrating robust backend services, primarily in the healthcare domain. Known for reusable component design, performance optimization, and full-stack collaboration.

Professional Experience

ReactJS Developer, *SOXO TECH LLP*
07/2021 – Present
Kozhikode

- Developed scalable web interfaces for healthcare systems (e.g., Nura.in, MATRIA, STOPTB, ALSALAMA) using ReactJS, Redux, and TypeScript.
- Created reusable and modular UI components, reducing code
- Collaborated with backend teams to design and integrate REST APIs and Firebase Functions.
- Implemented efficient state management and dynamic form rendering with conditional logic.
- Enhanced lab tracking modules with real-time data updates using Firebase and optimized patient data flows.
- Led the development of appointment scheduling and medical lab result features in NestJS.

Education

Master of Computer Applications (MCA), *University of Calicut*
2017 – 2020
Kerala

Bachelor of Science (B.Sc.) in Information Technology, *University of Calicut*
2014 – 2017
Kerala

Technical Skills

Frontend
ReactJS, Redux, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, Material UI

Databases
MySQL, MSSQL

Backend
NestJS, Firebase Functions, RESTful APIs

Tools & Platforms
Git, GitHub, Postman, Jira, Trello, VS Code

Languages

English
– Professional working proficiency

Malayalam
– Native proficiency

Key Projects

Medical Web Applications (NURA, MATRIA, ALSALAMA, STOPTB) (07/2021 - Present)
- Developed appointment scheduling and management systems
- Implemented patient registration and health record management
- Designed laboratory sample tracking and result management features
- Built event management and patient screening functionalities
- Technologies: React JS, NestJS, REST APIs.

KIA Finance (07/2021 - Present)
- Developed accounts and finance management functionalities.
- Created billing and invoicing management features
- Implemented stock transaction tracking
- Designed settlement and reconciliation processes
- Built product delivery management features
- Technologies: React JS, Firebase, Firebase Functions,REST APIs
